KYLE PEZANT   JR. WEB DEVELOPER

3281 Ridgecrest Ct #1018

Norman, OK 73072

CAREER OBJECTIVE

I aim to become a full-stack web developer. I am interested in specializing for front-end development. Put simply, I want to create and build sites and applications for a growing Oklahoma City market.

EXPERIENCE

Career Foundry – Full-Stack Developer in Training. Completing courses and work that teach everything from front-end development to Ruby-on-Rails apps. 10/2015-4/2016

World Experiences Foundation – VOLUNTEER - Updating, customizing, and managing a WordPress based site for the new non-profit organization based in OKC. I have also created the logo and business cards for the organization. 9/2015-Present

EDUCATION

Career Foundry – Mentorship and hands on learning boot-camp. I dedicate most of my free time to completing these courses ahead of time and gaining as much experience as I can from my mentor and the community.

Various Online Courses – Code Academy, Free Code Camp, CodeCloud.io

Mid-America Christian University – BS in Marketing

SKILLS

Adobe Photoshop CC
Adobe Illustrator CC
HTML5, CSS3
JavaScript, J-Query
Bootstrap Framework
Preprocessors-Sass, Jade
CMS- WordPress, Squarespace, Wix
